Welcome to our Speech and Language Therapy Service.

Please take some time to look through the information on our website.

If your child needs speech and language therapy we have a team of over 90 highly skilled staff across Norfolk and Waveney able to help. We all work in different locations and specialise in different clinical needs.

My experience is in additional needs, mental health and eating and drinking difficulties and I still do clinical work on occasions, which I love.

I'm really proud of our service. Our advice is always child focused which means we can achieve the best outcomes for every child we support and let you know if they need more support than we are able to offer.

I trust your experience of our service meets my expectations as a clinician and the team manager. Please contact us to let us know how we are doing, it is always good to hear the success stories and how we can improve our service.

I wish you and your child all the best in their communication journey, and/or eating and drinking development.

Kind regards

Claire Taylor
